

Communication Molds

Communication Molds

#33 Communication Mold - (a) #1 Standard
(b) #6 Cross "B"

Oto Hearing Products has designed a Communication Mold made out of a skinflex (Vinyl) material. For ultimate comfort, this custom fit mold is intended to be used with a two - way portable radio system utilized by all types of Law Enforcement and Security Guards. The Communication Molds come equipped with a curly cord that allows free movement of the head, without displacing the earmold.
