

OUR COMMITMENT RAISING THE INDUSTRY STANDARD

In recent years, Safety and Hearing Industries have seen rapidly increasing technological growth. Our customers today expect what the newest technology has to offer them. And when it's their hearing safety on the line, they're absolutely right! That is why OTO Hearing Products continually reinvents manufacturing processes, materials, and components.

OTO's Ear Defenders are the latest result of our commitment to research and development. Ear Defenders provide maximum protection against harmful noises, exceeding WCB standards. Our Ear Molds are custom crafted for each individual from the most comfortable sound reducing materials available. Whether or not you use ear protection regularly, it's never too late to protect your hearing with OTO's Ear Defenders. OTO Hearing Products Ltd. wants you to hear the difference quality makes!

WHY FIT THE MOLD TO MY EAR?

Every ear is different. Custom fitted molds will improve the comfort of the ear plug. More importantly, fitted molds dramatically improve the effectiveness of ear protection. Disposable ear plugs often do not provide sufficient protection because they do not fit properly. OTO's Ear Defenders are always custom fitted for the individual.

ABOUT OTO HEARING PRODUCTS LTD.

OTO Hearing Products Ltd. is a British Columbia owned and operated custom hearing instruments laboratory. OTO has supplied Safety and Hearing Industries since 1958. For over 58 years, we have been committed to the highest levels of quality and customer service.

What would you do if you couldn't hear?

CLASS A for maximum protection in all environments.

CLASS B FILTER for sudden impact noises such as hammering, shooting and fireworks.

CLASS C FILTER for constant noise such as those of heavy machinery, loud motors and music concerts.

OTO'S EAR DEFENDERS provide attenuation as per Workers' Compensation Board ratings for Class A, B, and C hearing protection.

PROTECT YOUR EARS!

180 dB - firecracker

167 dB - gunshot

140 db - absolute noise limit

140 dB - muzzled gunshot, jet engine

120 dB - rock concert

115 db - 15min max. exposure

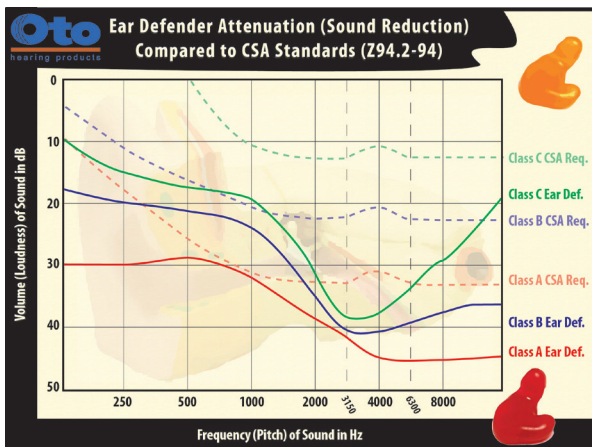

115 dB - sandblasting, auto horn, motor boat

100 dB - chainsaw, pneumatic drill, snowmobile

90 dB - lawnmower, shop tools, truck traffic

60 dB - normal conversation

85 db - habitual noise limit

Consult the Attenuation Graph to see which Filter Class is best for your workplace.

WHICH IS MY BEST MATCH?

WORKPLACE MOLDS

Many people don't realize that occasional and intermittent noise in the workplace increases the rate of natural hearing degradation. In conditions where noise is persistent or excessive, such as those in construction and industrial environments, those who fail to properly protect their ears run a much higher risk of irreversible hearing damage. OTO's Ear Defenders provide ultimate protection to those in noise impacted environments. Available in all colour and glitter options.

Options:

- a. Plastic handle with cord/clip
- b. Molded handle
- c. Removable cord with clip
- d. Storage pouch

SWIM MOLDS

Swim Molds are the most effective way to keep water from entering the ear canal and minimize the chance of ear infection. Swim Molds are ideal for water sports, recreational swimming, daily showering and people whom suffer from chronic ear infections. OTO's 100% floatable Swim Molds are available in eleven stylized solid bright colours plus an option of two to three colour swirls. Glitter and clear options not available. *Pouch included with product.*

Options:

- a. Removable cord
- b. Flush mold
- c. Molded handle

EAR BAND-IT®

Keeps Water Out, Holds Ear Plugs In! Colourful, reversible NEOPRENE headband adjusts with Velcro® like closure to fit all ages. Comfortable, durable and easy to wear. Keeps ears warm while preventing swimmer's ear.

SLEEPER MOLDS

While giving you the same level of protection as OTO's other Ear Defender molds, Sleeper Molds are delicately sculpted from the softest medical grade silicone for the most comfortable ear plug experience available. Ideal for sleeping, reading and traveling. *Available in all colour and glitter options.*
